A weekly newsletter from ICAR-CICR

Field Survey by Scientists for Buldhana, Jalgaon, Dhule and Nandurbar (Maharashtra) for pest's infestation assessment & HT cotton cultivation

As a member of committee constituted by Director, ICAR-CICR, Dr. Shailesh P. Gwande, Scientist (Plant Pathology), Dr. A. Manikandan, Scientist (Soil Science) and Mr. Ratnadeep Ramteke, Technical Assistant, ICAR-CICR, Nagpur have visited different villages of Khamgaon, and Malkapur tehsil of Buldhan, Bhusaval and Muktainagar of Jalgaon District Erandole, Dhule, Shahada and Nandurbar of Maharashtra for collecting leaf samples for Herbicide Tolerance (HT) testing and for collecting green bolls for assessment of pink bollworm damage on 27th, 28th, 29th and 30th September, 2018 respectively. From each field, one terminal leaf from each of 10 randomly chosen plants and one green boll from each of 20 randomly chosen plants were collected as one sample for HT testing (leaf sample) and pink bollworm damage assessment (boll sample). In total, 40 samples were collected from different locations of four Districts. GPS/locations of the sampling sites were noted and required details about crop history were collected wherever farmers were available in the fields the team interacted with the farmers regarding situation and answered the queries raised by the farmers. The agriculture officials were also accompanied with the team. Samples were brought in ice boxes and handed over to the concerned laboratory for testing at ICAR-CICR, Nagpur.
